Queen Wilhelmina of Holland
in the gardens at Het Loo
FROM A PAINTING BY A DUTCH ARTIST
HENDERSON'S
AUTUMN CATALOGUE
1923
PETER HENDERSON & CO

If You Want Beautiful Bulbous Flowers

In your house next winter, or in your garden next Spring

You must plant the Bulbs this coming Fall!

Bulbs are practically all grown in Holland and as we are large importers we get the pick and import only "firsts" Having been engaged in the bulb importing business for three-quarters of a century, we know intimately all the best growers of the different varieties in Holland; some excel in growing one kind, and some in another, so that we are in a position to get the best qualities of All Varieties. Bulbs sold by local dealers are usually "seconds," and we advise you to order bulbs as soon as you get this catalogue, and not wait until the last week.

The ground is sometimes frozen in northern latitudes by the time our November shipments are ready, but, if customers will have the ground covered where the late-maturing sorts are to be planted, with two feet of dry leaves, straw or manure,

to prevent freezing, the bulbs can be planted with safety when received.

THE FRONT COVER. This year, we picture a scene in the gardens at "Het Loo" the palace of Queen Wilhelmina.

The 25th anniversary of her reign was celebrated with great rejoicing in Holland this year, and as that country is our source of supply for most bulbs, we thought the picture appropriate.

IMPORTANT NOTICE—The U. S. Government has decreed that Narcissi (Daffodils) may only be imported until 1925. As a result of this ruling, prices will, of course, advance. We therefore suggest that you order your Daffodils for future use NOW, taking advantage of present low prices

SPECIAL NOTICE.

Bulbs and roots mature and ripen at different periods during the late summer and autumn, and shipments will be made as follows in the absence of contrary instructions:

Our August shipment includes Liliun Harrisii, Freesias Roman and French Hyacinths, Paper-White and Roman Narcissi.

Our September or Main Shipment includes the general line of bulbs, such as Hyacinths, Tulips, Narcissus, Crocus, Iris, Peonies and Callas.

Our November shipment includes Lily of the Valley and Lilies, Snowdrops, Scillas etc.

CONDITIONS OF ACCEPTANCE. All advance orders for growing crops are booked by us previous to harvesting and receipt—subject to crops permitting—and accidents or delay beyond our control. Should shortages necessitate it, we reserve the right to fill such orders pro-rata.

A BED OF HENDERSON'S NAMED DUTCH HYACINTHS

We supply 6 Bulbs of one variety at the dozen rate, 25 at the 100 rate

HENDERSON'S SUPERIOR DOUBLE DUTCH NAMED HYACINTHS

All Select First Bulbs, not "Seconds" that may be sold at a lower price.

Double Hyacinths are not as popular as the single-belled varieties; for as a class the "doubles" although their individual bells are large and beautiful, do not make as well-filled trusses. For this reason we confine our list of varieties to a few of the very best. The figures 1, 2, 3 and 4 after the names of Hyacinths indicate the relative time of flowering—the 1's flower together and are the earliest; No. 4 the latest. If wanted by Parcel Post add postage at zone rates on page 2 of cover. Packed weight 3 lb. per dozen.

PRICE—20c. EACH; \$2.00 PER DOZEN; \$16.00 PER HUNDRED.

DOUBLE WHITE AND TINTED HYACINTHS.

Bouquet Royal (2), pure white double bells with yellow center; fine spike.

Isabella (2), white suffused with rosy blush, enormous double bells and large well-filled spike.

La tour d'Auvergne (1), an old favorite early variety and still hard to beat; double pure white bells on tall spike.

DOUBLE YELLOW AND ORANGE HYACINTHS.

Goethe (2), a popular old variety salmon yellow with pinkish center; double bells and good spike.

Jaune Supreme (4), deep yellow tinted with salmon, good spike.

Sunflower. Splendid deep buff-yellow.

DOUBLE RED ROSE AND PINK HYACINTHS.

Groot Voorst (3), large very double bells of blush pink with darker center; good spike.

Noble par Merite (3), deep pink, very large fine double bells, tall spike; good forcer.

Princess Alexandrina. Bright deep rose with purplish red center.

DOUBLE LAVENDER, BLUE AND PURPLE HYACINTHS.

Blocksburg (4), light blue shaded darker blue; double bells on tall spike.

Garrick (2), deep rich blue with lavender tints; extra large double bells; fine spike.

Von Speyk (2), lavender tinted with azure blue; fine compact spike of double bells.

"DUTCH ROMAN" HYACINTHS

They may be had in flower from January on. The bulbs may be placed very near together—say $\frac{1}{4}$ in. apart—requiring 7 or 8 bulbs for a 7 in. pan or 5 bulbs for a 5 in. pot or pan.

If wanted by Parcel Post add postage at Zone Rates on page 2; Packed Weight 1 lb. per doz., 8 lbs. per 100.

Henderson's "SPECIAL" HYACINTHS

FOR BEDDING OR POT CULTURE WITHOUT NAMES—CHEAPER THAN
NAMED VARIETIES—FAR BETTER THAN MIXED.

Henderson's Special Hyacinths (equally useful for garden, bedding and borders, or forced for winter flowering in pots or pans) are larger sized bulbs than those put in ordinary mixtures. They are the same size as the first size Named Hyacinth offered by us from which these are the second selection. They are of great value for bedding in designs, enabling one to obtain the exact color effect desired which is a great advantage over mixed reds and mixed blues. In beds, borders, etc., set the bulbs 5 to 6 inches part and 4 inches deep measuring from the top of the bulb. They are much used for winter blooming in pots. Plant or pot hyacinth bulbs between September and the last of November—the earlier the better—as it gives them a longer period to make roots before winter sets in and the flowers will be better developed.

Plant 1 bulb in a 5-in. pot, 3 bulbs in a 6 or 7-in. pot, 6 or 7 bulbs in an 8-in. pot or pan.

If wanted by Parcel Post add postage at zone rates on page 2; Packed weight 2 lbs. per dozen., 16 lbs. per 100.

PRICE—12c. EACH; \$1.25 PER DOZEN; \$10.00 PER HUNDRED.

HENDERSON'S SINGLE SPECIAL Crimson, Rose Pink, Snow White, Lavender Blue, Dark Blue, Yellow, Mixed Colors.

HENDERSON'S DOUBLE SPECIAL Crimson, Rose Pink, Snow White, Lavender Blue, Dark Blue, Yellow, Mixed Colors.

EARLY ROMAN HYACINTHS

Roman Hyacinths are exceedingly popular and invaluable for winter flowering in the house in pots or pans, and are also extensively used for "forcing" for cut flowers. The white Roman Hyacinth is the earliest, best and most floriferous variety, though the pink, rose, and light blue are very beautiful and supply a variation of color.

They are all easily grown in pots of soil and if potted in September, the pots plunged in the open ground for a month until the bulbs are well rooted, and then brought in the house they can be had in flower in November or December, and from that time throughout the winter a continuous succession of delightful flowers may be enjoyed by bringing in from the plunge or cellar a pot or two of the rooted bulbs at intervals of about two weeks. A five-in. pot is large enough for 3 bulbs, a six-inch pot or pan for 6 bulbs, a seven-inch pot or pan for 8 bulbs. Roman Hyacinths are not hardy enough for open ground planting north of Washington, but where the winters are mild, especially if lightly protected with mulch they thrive excellently in the garden.

If by Parcel Post add postage at Zone Rates on page 2; Packed weight 1 lb. per doz., 8 lb. per 100.

HENDERSON'S NEW GIANT DARWIN TULIPS

THE TULIP ARISTOCRATS—The Darwin Tulips are exceedingly effective when grown in the garden or herbaceous border with a black ground of greenery. The beauty, hardness and perpetuity of Darwin Tulips has made them very popular. As cut flowers they are unsurpassable, the long-stemmed bold, durable flowers having a dignity and character exclusively their own.

To aid in making selections of varieties for continuity of bloom, etc., we have indicated their relative time of flowering by the letters E, F, G, H and I. The E's being the earliest to bloom. The height is also given but may vary. The bulbs should be spaced about 5 inches apart and base of the bulbs should be 5 to 6 in. deep on heavy soils and 6 to 7 inches deep on light soils.

If wanted by parcel post add postage at Zone Rates on page 2 of cover. Packed weight $\frac{3}{4}$ lb. doz.; 6 lbs. per 100.

Henderson's LATE OR MAY-FLOWERING COTTAGE TULIPS

Cottage Tulips are so-called because many of them were found growing in the old cottage gardens of England, Scotland, Ireland and France where they had been established for 50 years or more. All are very beautiful, presenting a great variety in form and coloring, and having none of the stiffness of other tulips. For cutting they are greatly prized on account of their long stems and graceful habit. Being extremely hardy they are specially adapted for hardy flower borders, where they should be planted in large clumps and masses. To aid in making selections for continuity of bloom, etc., the relative time of flowering is indicated by the letters E, F, G, H and I. Those marked E being the earliest. Those marked I are the latest to bloom. The normal height is also given in inches. In planting the bulbs should be placed 5 inches apart and the bottom of the bulb should be 6 to 7 inches below the surface in light soils and 5 to 6 inches deep in heavy soils. If planted too shallow some may come blind.

If wanted by Parcel Post add postage at Zone Rates on page 2 of cover. Packed weight $\frac{1}{4}$ lb. doz.; 6 lbs. per 100.

BI-COLOR TRUMPET SINGLE DAFFODILS

NARCISSUS

DAFFODILS and JONQUILS

IMPORTANT NOTICE. The U. S. Government has decreed that Narcissus (Daffodils) may only be imported until 1925. As a result of this ruling, prices will undoubtedly advance. We therefore suggest that you order your Daffodils for future use this season and take advantage of present low prices.

With the exception of the Polyanthus varieties all are hardy, grow, increase and flower year after year. They may be grown in garden beds, in herbaceous borders, or "naturalized," that is, grown as if wild in outlying portions of the lawn or grounds. The early sorts commence blooming in March and with a selection of mid-season and late flowering kinds an endless succession of bloom may be enjoyed well into May. As cut flowers Narcissus are especially useful, being of lasting quality and vasing beautifully. The bulbs may be left undisturbed for several years on good loamy soils. The depth to plant varies according to the size of the bulbs—a covering of 2 to 3 inches of soil is about the average—a good rule is to cover the bulb one and half times its own diameter. On light sandy soils plant deeper than on heavy soils. The distance apart should be 3 to 6 inches according to size. Narcissus and Daffodils are also flowered in the greenhouse or window in pots, pans and flats of soil.

The numbers following the names indicate their relative earliness; (1) 1st early, (2) 2nd early, (3) midseason, (4) late, 5 very late.

If Narcissus are wanted by Parcel Post add postage at Zone Rates on page 2 of cover. Packed weight 1½ lb. per doz. 10 lbs. per 100.

POET'S NARCISSUS

THE CHALICE CUP DAFFODILS

LARGE-FLOWERING PAPER WHITE NARCISSUS

CHINESE SACRED NARCISSUS

The "Shui Sin Far" or Water Fairy Flower, Jos Flower or Flower of the Gods, etc., as it is called by the Celestials, is a variety of Narcissus, bearing in profusion chaste flowers of silvery-white, with golden-yellow cups. They are of exquisite beauty and entrancing perfume.

The bulbs, of large size and great vitality, are of luxuriant growth, producing several spikes of flowers; the incredibly short time required to bring bulbs into bloom (about six weeks after planting) is one of the wonders of nature.

They should be grown in a moist atmosphere where the temperature does not go above 65 degrees.

They do well in pots of earth, but are more novel and beautiful grown in shallow bowls of water, with enough fancy pebbles to prevent them from toppling over when in bloom. A dozen bulbs started at intervals will give a succession of flowers throughout the winter.

Price, largest true China-grow bulbs, 30c. each; \$3.00 per doz. Packed weight $\frac{1}{4}$ lb. doz.

MIXED NARCISSUS AND DAFFODILS

FOR NATURALIZING IN BORDERS, WILD GARDENS, ETC.

We offer these at exceptionally low prices to encourage liberal plantings. They are very suitable for growing in masses for garden decoration. They are perfectly hardy and will flourish and increase for years. If wanted by Parcel Post add postage at zone rates. Packed weight 1 lb. doz. 8 lbs. per 100.

THE HARDY CLUSTER-FLOWERED DAFFODILS

NARCISSUS POETAZ

These new hybrids between Poeticus and Polyanthus are hardy, healthy, strong growers, some of the varieties attaining a height of 2 feet. The Poeticus-like flowers are borne in clusters like the Polyanthus. They soon form large luxuriant clumps. Packed weight $\frac{3}{4}$ lb. per doz. 6 lbs. per 100.

	each	doz.	100
Alsace (3). Pure white with yellow cup, having a slight reddish edge when newly opened; broad large flower usually 3 to a stem	.12	1.25	9.00
Elvira (4). A large flower of remarkable substance, 3 to 4 borne on long stems, 2 to 3 stems to a bulb; fine for cutting; color pure white with yellow cup; strong grower and free flowering; height 24 inches	.12	1.25	9.00
Irene (4). Yellow perianth with deep golden yellow cup; broad flower borne 7 to 8 on a stem; 3 stems to a bulb. The largest yellow	.12	1.25	9.00

The numbers following the names indicate their relative earliness; (1) 1st early, (2) 2nd early, (3) mid-season, (4) late, (5) very late.

POLYANTHUS NARCISSUS

The *Polyanthus* varieties of Narcissus are deliciously sweet scented, of the easiest culture, very free flowering and continue long in bloom; bearing from six to one dozen flowers each. The pure white petals and gold cups of some varieties, the yellow with deep orange cups of others and the self whites and yellows render them great favorites. South of the freezing belt they are splendid for gardens and "naturalize" well. For growing in pots or pans of soil, they are especially adapted and can be had in flower in the house from Christmas throughout the winter by bringing the pots of rooted bulbs in from the frame or cellar every week or two. If wanted by Parcel Post add postage at Zone Rates on page 2 of cover. Packed weight $1\frac{1}{4}$ lb. doz. 10 lbs. per 100.

ALL YELLOW POLYANTHUS NARCISSUS

Grand Soleil d'Or. Clusters of golden-yellow flowers with orange cups	.12	1.25	9.00
Queen of Yellows. A splendid variety, large round flowers with broad overlapping petals of bright yellow with orange cups; many of these flowers are borne on a stalk, thus forming a big cluster; very free bloomer	.12	1.25	9.00

WHITE AND YELLOW POLYANTHUS NARCISSUS

Bazemann Major. Large flowers in immense clusters; pure white perianth, dark yellow cup; one of the finest Polyanthus in cultivation	.12	1.25	9.00
Grand Monarque. Purest white flowers with canary-yellow cups	.12	1.25	9.00
Mont Cenis. A splendid variety having broad round petals of white and rich yellow cup; of stocky growth; large clusters of bloom	.12	1.25	9.00
Double Roman or Constantinople. An early free flowering variety with white perianth and double orange-yellow cups; largely forced for winter cut flowers	.12	1.25	9.00

ALL WHITE POLYANTHUS NARCISSUS. Weight same as preceding.

White Pearl. Large pure white flowers opening with cream cups, which change to pure white in a day or two	.12	1.25	9.00
Paper White "Grandiflora" or Large Flowering. This large flowering type is such an improvement over the ordinary "Paper White" that we have discarded the latter. The "Large Flowering" is more vigorous and earlier, producing purest snow white flowers of large size and good substance in large trusses. It is used for early forcing for cut flowers being brought in without difficulty by Christmas, and even earlier.

SPRING-FLOWERING CROCUS

LILY OF THE VALLEY

(Ready for delivery in November.)

If by Parcel Post add postage at Zone Rates on page 2 of cover. Packed weight—4 lbs. per 100.

Henderson's Extra Single Crowns or "Pips." The finest grade of Crowns in the world for winter flowering. They will bear 12 to 16 large bells on strong stalks, with foliage, even when forced for extra early; the pips average large, plump and regular, with extra long roots. 25 Crowns (1 bundle) \$1.50; 100 Crowns, \$5.50; \$50.00 per 1000.

Fortin's Giant. This is the largest variety yet produced; it is only adapted for open ground planting and may not show much superiority the first spring after planting, but by the second season, or when it gets well established, it produces wonderfully luxuriant foliage and immense spikes of purest white bells twice the size of any other sort. In every way it is superior. Crowns, 80c. per doz.; \$6.00 per 100.

CALLA LILIES

Calla Aethiopica, or Lily of the Nile. This old favorite White Calla Lily is too well known to require any description. We offer dry roots, as they are superior for forcing and winter-flowering purposes; they come into bloom quickly and require less room making less foliage. Extra large bulbs, 35c. each, \$3.50 per doz., postpaid.

The Godfrey Everblooming Calla. This new hybrid is a true ever-blooming variety. Compared with the ordinary white Calla, it gives three flowers to one, the flower being equally large, of perfect form and very much whiter. Properly treated, the same plant will grow and bloom without ceasing. The plant is of dwarf, compact, strong growth, about 18 inches high, with an abundance of dark green leaves. Dormant bulbs, 35c. each, \$3.50 per doz., postpaid.

Yellow Calla, Eliotianna. The finest yellow Calla; large rich, deep golden flowers often 4 to 5 inches across at the mouth; habit of growth and foliage like the old favorite white Calla excepting the leaves of Eliotianna are spotted with white. Dry bulbs, 50c. each, \$5.00 per doz., postpaid.

HENDERSON'S SUPERIOR FREESIAS

Freeseas are most popular for pot culture, flowering in the winter and spring in the conservatory, or window garden; 6 to 8 bulbs should be planted in a 4-inch pot. They force readily and can be had in bloom by Christmas if desired, and by having a dozen or more pots started in the cold frame they can be brought in at intervals, thereby keeping up a continuous display of bloom through the winter; the flowers are produced 6 to 8 on stems about 9 inches high.

Purity. A distinct and greatly improved type producing large sprays of purest snow white flowers of immense size and deliciously fragrant; it is very free blooming and of great value for forcing for cut flowers. Extra Size Bulbs, 60c. per doz.; \$4.50 per 100; \$40.00 per 1000. Postpaid.

THE "FARDEL" COLORED FREESIAS

These beautiful novelties are rapidly winning favor on account of their lovely and unique colorings viz., shades of pink, mauve, purple, violet, blue, yellow and orange, which we offer in mixed colors only. Very fragrant and free flowering. Each principal spike usually carries 7 to 9 flowers—while the side spikes of which each bulb produces several, usually bear 5 to 6 flowers. Their culture differs in no way from that of the white Freesia.

Mixed Hybrids. 10c. each; \$1.00 per doz.; \$7.50 per 100. Postpaid.

SPRING FLOWERING CROCUS

Including New Hybrid Varieties

As edgings to beds—and bordering walks—or as undergrowth among tulips, hyacinths, daffodils, etc., they are very effective as the flowers are over when the other bulbs begin blooming, and then the crocus foliage forms a beautiful grass like setting for the later flowering bulbs.

Crocus are also easily flowered in the house in winter, grown in pots and pans of soil. For instructions see leaflet "How to Grow Bulbs" sent with every order.

We have discontinued offering the cheap mixtures of Crocus as the larger bulbs—produce more and larger flowers.

If wanted by Parcel Post add postage at Zone Rates on page 2 of Cover. Packed weight 2 lbs. per 100.

PRICE—35c. PER DOZEN; \$2.50 PER 100; \$20.00 PER 1000.

WHITE CROCUS

King of Whites. A grand new variety, producing long snow-white flowers.

May. Lovely round petalled pure white flowers of great size.

Mount Blanc. An old favorite, large pure white.

BLUE AND PURPLE CROCUS

Baron Von Bruno. A large deep purple.

David Rizzio. Deep lavender shaded purple.

Hero. A new hybrid; dark glossy purple. Extra large and fine.

Maximilian. Beautiful sky-blue flowers, very distinct.

STRIPED CROCUS

Albion. A fine large lavender striped white and violet.

Cloth of Silver. White feathered and striped with lilac and purple.

Fantasy. A new hybrid; immense flowers of light gray striped dark blue.

YELLOW CROCUS.

Cloth of Gold. The earliest of all, very prolific yellow veined golden brown.

Yellow Mammoth. The largest flowering sort of this color.

MIXED GIANT FLOWERING CROCUS

All colors and shades including many new hybrid seedlings so far out classing the ordinary grade mixtures that we have discarded the latter.

25c. PER DOZEN; \$1.75 PER 100; \$15.00 PER 1000.

OXALIS

Charming little half-trailing or bushy plants particularly adapted for pot culture and hanging baskets, the foliage alone is very attractive and when in flower they are exceedingly pretty.

Bermuda Buttercup. This is one of the finest winter-flowering plants for pot culture, it is a strong luxuriant grower, and the great profusion of bloom produced in uninterrupted abundance for weeks is astonishing. The flowers are of the purest bright buttercup yellow. 5c. each, 50c. per doz. \$2.50 per 100. Postpaid.

Grand Duchess. A California variety of great beauty; of dwarf sturdy growth throwing large exquisite flowers well above the foliage. Extremely free flowering from November till June. Price for either White, Pink, or Lavender, 5c. each; 50c. doz.; \$2.50 per 100. Postpaid.

THE "FARDEL" COLORED FREESIAS

We supply 6 Bulbs of one variety at the dozen rate, 25 at the 100 rate, 250 at the 1,000 rate.

GENERAL LIST OF HARDY LILIES

Lilies commence flowering in June and with the various species maintain a continuous and unbroken succession of bloom until autumn. They are also excellent subjects for the shrubbery border. Most Lily Bulbs, being of late maturity, are not ready before October and November (the best time to plant them). Where the ground is liable to freeze up before the late lilies arrive it should be mulched with 6 or 8 inches of leaves or manure so the bulbs may be planted on arrival. If wanted by Parcel Post add postage at Zone Rates on page 2 of cover. Packed weight per doz. is given.

Auratum. (The Golden Rayed Lily of Japan.) The flowers are pure white, thickly studded with crimson spots, while through the centre of each petal runs a clear golden band. Fully expanded, the flowers measure nearly a foot across and possess a most delicious fragrance. Season of bloom from June to October. 3 to 5 feet.

First size bulbs. (Packed weight 3 lbs. per doz.) 40c. ea.; \$4.00 doz.

Extra size bulbs. (Packed weight 5 lbs. per doz.) 50c. ea.; \$5.00 doz.

Mammoth bulbs. (Packed weight 7 lbs. per doz.) 75c. ea.; \$7.50 doz.

Candidum, Henderson's Superior Northern Crown. This is the ever popular, fragrant, snow-white, hardy garden Lily, which is also known as "Annunciation Lily," and "Madonna Lily." It grows 3 to 4 feet high, and blooms in the open ground in June. When grown in masses these lilies are especially effective against the surrounding greenery of shrubs, etc. Price, extra large bulbs, \$30.00 per 100. (Packed weight, 4 lbs. per doz.) 40c. ea.; \$4.00 doz.

Canadense. Our native Canadian Lily. Bright yellow marked with copious spots of red; blooms in June and July. 2 to 3 feet high. Postpaid, 20c. ea.; \$2.00 doz.

Canadense Flavum. A pure yellow selection of the above. Postpaid, 20c. ea.; \$2.00 doz.

Canadense Rubrum. Crimson with dark spots. Postpaid, 20c. ea.; \$2.00 doz.

Davuricum. A Siberian Lily; bright scarlet flowers dotted black, height 2 to 3 feet. 20c. ea.; \$2.00 doz.

Elegans Leonard Joerg. Rich apricot spotted. Postpaid, 20c. ea.; \$2.00 doz.

Golden Gleam. This new yellow sport of *L. tenuifolium* resembles its parent in habit of growth and freedom of bloom—excepting that the flowers are of pure golden yellow and very beautiful; height 18 inches. Postpaid, 50c. ea.; \$5.00 doz.

Hansoni. (The True Japanese Yellow Martagon.) This is one of the best of the Martagon group, unsurpassed in vigor of growth and beauty by any other Lily. The flowers are large, of a bright yellow, tinged orange and spotted maroon, with thick wax-like petals. Very robust and free. Postpaid, 75c. ea.; \$7.50 doz.

Henryi. (The Yellow Speciosum.) A new rare and very beautiful Lily from China. It is very hardy, a strong, healthy grower, and without doubt one of the best Lilies for garden culture and most effective for massing. The flower stalks, 3 to 5 feet high, carry 5 to 8 large flowers each, the color, a rich apricot-yellow, lightly spotted with brown, and the shape and size of the flowers and the habit of growth has suggested the name "Yellow Speciosum." Postpaid, 75c. ea.; \$7.50 doz.

Speciosum or Lancifolium. The varieties of *L. Speciosum* or *Lancifolium* are perhaps the most popular Lilies grown. They are easy of cultivation, and produce large flowers of delicate beauty on strong stems; height, from 2 to 4 feet; blooming in August. The varieties are:

Speciosum Album. White. (Packed weight 3 lbs. per doz.); largest bulbs, 60c. ea.; \$6.00 doz.

Speciosum Rubrum (Roseum). White, shaded and spotted with rose and red. (Packed weight 3 lbs. per doz.); largest bulbs 60c. ea.; \$6.00 doz.

Speciosum Melpomene. Rich blood-crimson, heavily spotted. (Packed weight 3 lbs. per doz.); largest bulbs 60c. ea.; \$6.00 doz.

Superbum. (Turk's Cap Lily.) One of our native species. Grown in good, rich soil, it will produce upwards of 50 beautiful orange, tipped red, spotted flowers in a pyramidal cluster. 3 to 5 feet high. Blooms in July. Postpaid, 20c. ea.; \$2.00 doz.

Tenuifolium. A miniature Lily having slender stems, 18 inches high, bearing 12 to 20 fiery-scarlet flowers. A gem for cutting, and easily grown in pots or in warm, dry border; early. Postpaid, 25c. ea.; \$2.50 doz.

Tigrinum Splendens. (Improved Tiger Lily.) The grandest of the Tigers, black polished stem, sometimes 6 feet high. Very large pyramids of flowers, orange red, spotted with black, 3 to 5 feet high. Blooms in August. (Packed weight 1 lb. per doz.) \$10.00 per 100; 25c. ea.; \$2.50 doz.

Tigrinum Flora Plena. (Double Tiger Lily.) Double bright orange-red flowers spotted with black. Blooms in August. (Packed weight 1 lb. per doz.) \$10.00 per 100; 30c. ea.; \$3.00 doz.

Umbellatum. One of the very best classes of the hardy garden Lilies; strong sturdy habit, growing from 2 to 3 feet high, having large showy flowers in clusters at the summit, flowering in June and July. The colors range through all shades of red from rose to blackish-crimson, yellow, buff, orange, etc., many being spotted. Mixed colors. (Packed weight 2 lbs. per doz.) 20c. ea.; \$2.00 doz.

LILIES FOR FORCING

BERMUDA EASTER LILY

LILIUM LONGIFLORUM HARRISII

The short time required to bring this peerless Lily into flower, renders it invaluable.

The flowers are delightfully fragrant, pure waxy-white, and if cut when partially open, can be kept for two weeks. Bulbs potted in September can be had in flower in December, if desired.

A succession of bloom can be kept up throughout the winter by bringing in a few pots of bulbs from cold frames at intervals. Blooming plants in pots form typical Easter offerings and presents for decoration of the window, table, house or church. Nothing is more appropriately beautiful and highly appreciated. Thousands upon thousands are sold in the large cities every winter for this purpose.

As a garden Lily it is of great beauty, being entirely hardy, excepting in Northern climates, where it requires a protection of leaves or litter to the depth of 5 or 6 inches. Bulbs Ready for Shipment—August to December.

First Size Bulbs. (6 to 7 inches in circumference.) Those are good bulbs for either pot culture or for cut flowers. The bulbs should produce from 6 to 8 flowers. (Packed weight 2 lbs. doz.) 35c. ea.; \$3.50 doz.; \$27.50 per 100.

Extra Size Bulbs. (7 to 9 inches in circumference.) This is the most popular size to grow as pot plants for decoration and equally as valuable for cutting. Bulbs should produce from 8 to 12 flowers. (Packed weight 2½ lbs. doz.) 65c. ea.; \$6.50 doz.; \$50.00 per 100.

THE FORMOSA EASTER LILY

(LILIUM LONGIFLORUM FORMOSUM)

This is an improved type of the well known *L. longiflorum* also known as the "Easter or St. Joseph's Lily." The plants are of healthy strong growth—about 3 feet high and produce beautiful snow white trumpet shaped flowers, 6 to 8 inches long. This Lily is largely grown by florists who "force" them as pot plants and for cut flowers. It is not quite as early as *Lilium Harrisii*. For Shipment, September to December.

Extra Size Bulbs, 7 to 9 inches. (Packed weight 2½ lbs. doz.) 50c. ea.; \$5.00 doz.; \$37.50 per 100.

LILIUM LONGIFLORUM GIGANTEUM

This Japanese type is highly thought of for late winter and Easter forcing—though the bulbs of this variety are often carried over in cold storage to be brought into bloom at any desired time the succeeding year. The plant is of sturdy stocky growth—with black marked stems. The flowers of purest white are the largest of the longiflorums. For shipment October to December.

Extra Size Bulbs, 7 to 9 inch. (Packed weight 2½ lbs. doz.) 50c. ea.; \$5.00 doz.; \$37.50 per 100.

BERMUDA EASTER LILY

We supply 6 Bulbs of one variety at the dozen rate, 25 at the 100 rate.

GERMAN IRIS or FLEUR-DE-LIS

(IRIS GERMANICA)

These, the true Fleur-de-Lis—but greatly improved—are well termed "Garden Orchids" and they fairly outlive the orchids in wide range of coloring—both in dainty combinations and rich and vivid colors including yellows from light canary to deep golden; blues from soft lavender to intense purples, reds from pinkish mauve to claret and maroon, beautiful bronzes and pure whites then some are marked and margined with other colors in exquisite harmony, and all have showy yellow or orange crests or beards, many of the varieties are delightfully fragrant. As cut flowers they are highly prized, cut in the bud state the flowers will open in succession and last for several days with stems in water. For garden and landscape decoration—groups and masses of them are very effective, being perfectly hardy.

Our collection contains many new and choice varieties, and we are confident they will prove revelations of beauty to Iris lovers. The roots should be divided and replanted every fourth year in September as the plants are then dormant. The roots are ready for shipment from Sept. 15 to Nov. 15. If wanted by Parcel Post add postage at Zone Rates on page 2. Packed weight, 2 lbs. per doz.

JAPAN IRIS

(IRIS KAEMPFERI)

There are very few denizens of the flower garden that can compare with the Japan Iris for brilliancy, and it is worthy of a prominent place in every garden. The flowers average 8 to 10 inches across and flash like watered silk in the sunlight. They bloom in great profusion in June and throughout July, coming into bloom when other Irises are faded and gone which to most flower lovers is an additional recommendation. After the ground freezes over a light mulch of litter or manure will prevent heaving of the ground and a consequent loss of plants. Ready September to November. GIANT HYBRID AMARYLLIS

"INTERNATIONAL PRIZE" STRAIN

Awarded the Prize at the Flower Show, New York

These giant flowering hybrids of Vittata are unnamed seedlings from a famous English Collection and are of exceptional beauty. The coloring and markings are exquisite; the bulbs are very large, and are of sufficient strength and age to produce magnificent flowers during the winter or spring. They are probably the most magnificent and gorgeous bulbous plants known. Their immense flowers, richness of coloring and regal habit are simply incomparable. They throw up spikes from 2 to 3 feet high, bearing enormous wide petalled flowers averaging 8 to 10 inches across and of great substance, some being of rich and glowing colors, others delicately shaded and superbly veined.

Mixed varieties, \$1.00 each; \$10.00 per doz., postpaid.

GERMAN IRIS

ANEMONES

Highly ornamental winter, spring and summer flowering plants, having both single and double flowers, the colors of which are wonderfully beautiful, running through shades of blue, scarlet, rose, white, lavender, etc. For cutting they are grand. They are splendid for pot culture, flowering in the house or conservatory.

Single Poppy-Flowered. (Coronaria.) Large beautiful saucer-shaped.

Poppy-like blossoms flowering continuously throughout spring and early summer. Mixed colors, 75c. doz., \$6.00 per 100.

Giant "St. Brigid" Anemones. A new and greatly improved Irish variety bearing magnificent flowers, double, semi-double and single, 3 to 5 inches across, of the richest as well as the daintiest colors. There is maroon, bright scarlet, blood crimson, rose, pink, flesh color, mauve, blue, purple, yellow, cream, white, tinted, variegated, striped, zoned, etc., in endless variety. The flowers are borne freely on long stems and are charming when vased, the graceful feathery foliage supplying an appropriate setting. The tubers planted this fall will flower during the winter in pots in the house, or they may be grown on in cold frames for spring blooming or may be planted in the open ground in sheltered locations if well protected. Mixed Colors. \$1.00 per doz., \$7.50 per 100.

CHIONODOXA—Glory of the Snow

These are among the most exquisite of spring-flowering bulbs, and should be grown in quantities. They produce flower spikes bearing 10 to 15 lovely Scilla-like flowers. They are perfectly hardy, and may be planted as an edging to a bed, or in masses; naturalized in the lawn they are charming; they flower with the Snowdrops and last a long time in perfection. They will thrive well in any good garden soil, and are admirable for pot culture, winter blooming in the house, and for forcing, for cut flowers.

Chionodoxa Lucillae. Bright blue with large clear white centre (large cultivated bulbs). 60c. doz., \$4.00 per 100.

Chionodoxa Sardensis. Intense deep blue (large cultivated bulbs). 60c. doz., \$4.00 per 100.

Chionodoxa Gigantea. Unusually large flowers of lovely lilac-blue, with conspicuous white centre (large cultivated bulbs). 80c. doz., \$6.00 per 100.

CROWN IMPERIALS

Well-known spring-blooming, stately, hardy border plants, with clusters of immense pendant, bell-shaped flowers, surmounted with a tuft of green leaves. They are very effective, and if left undisturbed for years they form gigantic and picturesque groups, bearing gorgeously colored flowers.

Packed weight, 2 lbs. per doz.

Aurora. Red. 30c. each, \$3.00 per doz.

Crown upon Crown. Several whorls of flowers one above the other, 30c. each; \$3.00 per doz.

Sulphurea. Sulphur-yellow. 30c. each, \$3.00 per doz.

Mixed Colors. 25c. each, \$2.50 per doz.

DIELYTRA, or "Bleeding Heart"

One of the most ornamental of hardy spring-flowering plants, with elegant green foliage and long drooping racemes of heart-shaped pink and white flowers. This is deemed one of the finest of all hardy garden plants. If potted in November, left outside till it has formed new roots and then brought into a gentle heat, it may be had in flower in the greenhouse, in February and March. (Ready in November.)

Dielytra Spectabilis. Large roots, 75c. each, \$7.50 per dozen, postpaid.

ERANTHIS HYEMALIS

(WINTER ACONITE)

Early in spring the golden blossoms of the Winter Aconite look charming, resting on an emerald-green cushion of leaves and forming a striking contrast to the Snowdrop, Scillas and Chionodoxa. The foliage remains long after the flowers, making the plant especially valuable in moist situations such as under trees, which the Winter Aconite enjoys, and where few other flowering plants will thrive. 3 to 8 inches high. 40c. doz.; \$3.00 per 100, postpaid.

FRITILLARIA MELEAGRIS

Singular dwarf spring-flowering plants, bearing large pendant bell-shaped flowers of various colors, yellow, white, black, purple, striped and splashed and checkered in the most curious way. They are invaluable for pot culture and exceedingly pretty when grown in large groups in the garden border or wild garden in a dry situation. Mixed Varieties, 50c. doz.; \$3.50 per 100, postpaid.

GRAPE HYACINTHS

These very curious and pretty little Hyacinths are perfectly hardy, and of the easiest culture. they thrive and increase in either sunny or partially shaded positions in the garden. When naturalized in little colonies where they can remain undisturbed for several years, the effect—especially of the Grape Hyacinths—is very pretty, while as edgings they are most charming. They are also adapted for winter flowering in the house.

Blue Grape Hyacinths. 40c. per doz.; \$3.00 per 100, postpaid.

White Grape Hyacinths. 40c. per doz.; \$3.00 per 100, postpaid.

"Heavenly Blue" Grape Hyacinths. A new type with larger flowers of richest gentian blue, and delightfully fragrant; desirable for cutting and of splendid effect massed in the garden or border. 60c. per doz.; \$4.00 per 100, postpaid.

IXIAS

The Ixia is a beautiful little winterflowering bulb, with long, slender, graceful spikes of bloom. The colors are rich, varied and beautiful the center always differing in color from the other parts of the flower, so that the blossoms, expanding in the sun's rays, present a picture of gorgeous beauty.

Mixed Colors, 40c. per doz.; \$3.00 per 100, postpaid.

RANUNCULUS

Among dwarf flowers these are unrivaled for form and attractive colors, ranging through shades of crimson, white, yellow, purple, black, many of them being beautifully marked with other shades. They flower profusely in pots in the house during the winter or if grown in frames in the spring.

Double Giant French Mixed. Remarkably vigorous growers with immense and gorgeous, loosely double flowers 75c. doz., \$6.00 per 100, postpaid.

SCILLAS

WOOD HYACINTHS AND BLUE BELLS

Scilla Siberica. (*Amoena* or *Præcox*.) Most beautiful hardy spring bulbs, producing in profusion masses of exquisite rich blue flowers almost before the snow has disappeared. If grown in masses, their flowers fairly carpet the ground; and if grown with Snowdrops and Crocus, for contrast, the effect is magnificent. They should be largely planted as undergrowth in Hyacinth beds, etc. Grown in pots they may be had in bloom from Christmas until April. 75c. doz.; \$5.00 per 100, postpaid.

Siberica Alba. The new white flowering variety, very beautiful. 75c. doz.; \$5.00 per 100, postpaid.

Campanulata. (*Wood Hyacinth*.) Flowers borne on tall spikes, 1 to 2 feet high. Each flower measures nearly one inch across and droops gracefully; perfectly hardy; also fine for pot culture. We offer the following colors.

Campanulata, Major, Blue. 75c. doz.; \$5.00 per 100, postpaid.

Campanulata, White. 75c. doz.; \$5.00 per 100, postpaid.

Campanulata, Rose. 75c. doz.; \$5.00 per 100, postpaid.

SPIRAEA or ASTILBE

In garden culture these flower freely during the summer and are perfectly hardy, but their great value is when grown in pots for window and greenhouse decoration, in winter and spring and for forcing for cutting. The flowers are borne in large, feathery panicles, and last a long time in bloom. (Ready for shipment in November.) If desired by Parcel Post add postage at the zone rate. Weight 1 lb. each.

Gladstone. An improvement over all other white-flowering Spiræas—and one of the most beautiful winter and spring flowering pot plants grown; the immense trusses of flowers are as white as snow, and are borne on erect, strong stalks 18 inches high. Well-grown plants bear 25 to 40 of these plume-like trusses. Price of strong roots, 75c. each; \$7.50 per doz.

Rubens. A new and very beautiful carmine-rose colored Spiræa having the same habit, large feathery panicles and forcing qualities of Gladstone, also hardy and thrives under garden culture. 75c. each, \$7.50 per doz.

SNOWDROPS

In the early spring months there is nothing more beautiful than a sheet of the snowy, graceful blossoms of the Snowdrop. Beds and effects of surpassing beauty may be arranged with Snowdrops in the centre edged with bright blue Chionodoxias, or by intermingling them. In beds of Tulips and Hyacinths, Snowdrops are very effective between the lines; they flower while these bulbs are just moving the surface, and when the flowers are over there remains an elegant groundwork of green foliage. Used as a permanent edging, and in masses on the edges of lawns, nestling in the grass, they look charming. Snowdrops are easily flowered in pots during the winter.

Single Snowdrops. 60c. per doz.; \$4.00 per 100, postpaid.

Double Snowdrops. 70c. per doz.; \$5.00 per 100, postpaid.

Elwes' Giant Snowdrop. One of the finest of the genus, at least three times the size of the ordinary single Snowdrop; flowers slightly marked with green spots; fine for cutting. 65c. per doz.; \$4.50 per 100, postpaid.

TRILLIUM GRANDIFLORUM

American Wood Lily. Most beautiful American plants, perfectly hardy, growing and flowering profusely in partially shaded nooks about the lawn, under trees, etc. The flowers are large, of the finest white, changing in a few

days to soft rose. 12c. each; \$1.25 per doz.; \$9.00 per 100.

If by Parcel Post add postage at zone rates on page 2 of cover. Packed weight 3 lbs. per 100.

BLOOD ROOT

Sanguinaria Canadensis Major

A large flowering improved variety of our native "Blood Root." A fine hardy, spring-blooming, low growing plant for shady beds; handsome leaves, large pure white flowers. Height 6 in. 12c. each; \$1.25 a doz.; \$9.00 per 100.

If by Parcel Post add postage at zone rates. Weight 1 lb. per 100.

Bone Meal is one of the best fertilizers for Bulbs.

SINGLE SNOWDROPS

Henderson's Modern Peonies

SELECTED FROM THE WORLD'S NEWEST AND BEST VARIETIES

Our Method of Selling Henderson's Herbaceous Peonies.—It is the rule among most sellers of Peonies to send out divided roots, that is, older plants cut into several 3 to 5 crowned roots. These of course can be sold at a lower price, but all Peony purchasers should know that normal flowers of maximum size will not be produced on these divided roots for two or three years. As most of our customers prefer to pay a little more and get older, undivided roots, therefore we are this year offering roots of 2 and 3 years growth from the divided stage. These, according to age, will give a greater quantity of perfect blooms the succeeding summer if planted between September 1st and November 1st. For Cultural instructions send for our Peony Guide post free.

The roots offered in this list are for shipment September 1st to November 1st. Purchasers pay transportation charges. If ordered by Parcel Post add postage at zone rates on page 2 of cover. The packed weights are as follows: 2 yr. old, 2 lbs.; 3 yr. old, 4 lbs.

ASPARAGUS ROOTS

Asparagus grows easily in almost any good soil, but best results are obtained in well-enriched, deeply dug, sandy loam. A well cared for bed improves with age, and lasts for many years. It may be grown from seed, but much time is saved by planting roots.

The Asparagus plant is slow to die down in the fall, so that the roots cannot safely be dug until about November 1st. By this time the soil is so cool that the plants do not root readily, consequently many are winter killed. For this reason, we advise spring planting for any point north of Washington, D. C. (Ready in November for the South; in March and April for the North.)

Buyer pays transit charges on Asparagus Roots. 100 2-year-old Roots will weigh about 6 lbs. 100 3-year-old roots will weigh about 20 lbs.

THE "HENDERSON" LAWN GRASS SEED

Sown in the Fall, Produces Enduring Turf Which Withstands Summer Droughts

The fall season is especially favorable to the growth of young grass, for at that season the seeds have the benefit of thoroughly warmed ground and a copious rainfall, which hastens germination and enables the grass to become firmly established before winter sets in. Then, on the opening of spring, the grass immediately recommences its growth and, taking full possession of the ground prevents weeds from obtaining a foothold. A lawn grown in this way will endure summer drought much better than a spring sown lawn.

The quantity required for new lawns is 5 bushels per acre. For a plot 15x20, 300 square feet, use 1 quart. For renovating old lawns use one-fourth to one-half of above quantities. *Full instructions in every bag and package.*

The "Henderson" Lawn Grass Seed is in reality as cheap as any other, notwithstanding its superior quality for, while many mixtures on the market weigh only 14 pounds to the bushel, the "Henderson" Lawn Grass Seed weighs 20 pounds per measured bushel.

DELIVERED FREE IN THE UNITED STATES 40c. per qt., 75c for 2 qts., \$1.35 for 4 qts., \$2.25 per pk., \$8.00 per bushel of 20 lbs. (By Parcel Post, Express, or Freight, at our option.)
